1.0 Standard

The following security statement will be posted on a web page -- which may include other privacy and policy information -- linked directly from the State of Nebraska home page (<http://www.nebraska.gov>):

“The State of Nebraska is committed to ensuring the integrity and security of the information and systems it maintains. The State has taken steps designed to safeguard its telecommunications and computing infrastructure to prevent unauthorized access to internal systems and confidential information. If you have any knowledge of a security breach or potential security breach, please contact us at 402-471-4636 or cio.help@nebraska.gov.”
