

## Office of the CIO Automatic Notification System (ANS)

As explained by Steve Schock, 4/7/08

<http://www.mir3.com>

### **Pricing**

Base Fee:

- \$500/month or \$6000/year (includes one Initiator)
- Each Additional Initiator (\$37.50/month or \$450/year)

Notification (unlimited number of recipients):

- E-mail notifications are FREE
- Each phone call (per end-user) is \$ .10/minute with ½ minute minimum (\$ .05)
- SMS Text Messaging is \$ .08/message/end-user
- FAX Messaging is \$ .20/fax/end-user

Customizable calling procedures/prioritizations and customizable recipient groupings are included.

The system can be programmed to keep trying to reach end-users through a prioritized list of methods (e.g. e-mail, then phone, then text messaging, then faxing) until the end-user confirms contact.

The software is web-based and gives real-time reports as well as summary reports after each incident.
