Broadband — access to the Internet at a greater speed — is a foundation for economic growth and quality of life in Nebraska.

This forum will:

- Begin the conversation about how your region can increase adoption and utilization of broadband services
- Share how residents in your region are currently using and how they view broadband services through the results of a statewide survey
- Showcase broadband mapping data from your region as well as across the state
- Create a regional planning team to work on a regional technology plan

Help plan Nebraska's future by joining us at the regional forum!
