

OFFICE OF THE CIO

July 26, 2023

Greetings from the State of Nebraska—Office of the Chief Information Officer (OCIO). For those of you who are new to Network Nebraska, my name is Ed Toner, and I am the State CIO. In addition to my technology leadership role for State agencies, I also assist in the management of Network Nebraska.

Directly below you will find an overview of the 2023-24 Network Nebraska fees. In the pages preceding this cover memo you will see several documents follow providing details of the budget, a comprehensive list of member benefits, and other valuable information.

#### 2023-24 Network Nebraska Member Rates

Last year we were able to provide a reduction in the Participation Fee through utilization of Governor Emergency Education Relief (GEER) Funds while upgrading equipment and paying for utilized services. Because the GEER funds are not available for the 2023-24 year, we have a need to return some costs back to our participants. The 2023-24 monthly Participation Fee for Network Nebraska will be \$255.00, an increase from \$225.50 from the 2022-23 year.

The Interregional Transport Fee will stay the same for 2023-24. Additionally, the unit rates for internet will stay the same for the 43 entities that purchase internet on behalf of all the schools, colleges, libraries, and municipalities in the state. The first 2023-24 monthly invoice will arrive the first week of August and reflect these changes. Please alert your accounting staff.

As a reminder, the OCIO and the University of Nebraska contribute many telecommunications support services to Network Nebraska that involve no charge-back. For informational purposes those line items and their estimated value have been added to the Participation Fee Budget and Interregional Fee Budget (see pp 6-7 of this memo).

#### Zoom

Statewide Zoom videoconferencing continues to be available for Network Nebraska members and pricing remains consistent for the 2023-24 year. Please contact Zoom administrator, Scott Jones (<a href="mailto:scott.jones@esusixteen.org">scott.jones@esusixteen.org</a>), for more details about Zoom licensing and ancillary services. Zoom cost recovery will continue to be billed by ESU 16 in Ogallala.

### **Highlighted Member Benefits**

Below are some of benefits of participating in Network Nebraska that are most valued by our members. We understand that membership to Network Nebraska is voluntary, so we strive to continue to provide services and benefits unparalleled in the private sector.

#### Diverse. Resilient. There When You Need It.

Network Nebraska members can take advantage of connectivity to resilient upstream providers such as Windstream, Lumen, and Hurricane Electric. In partnership with the University of Nebraska, Network Nebraska can utilize the advanced research and education network resources provided by Internet2.

Finally, new to the 2023-24 fiscal year, members will be able to access a more direct connection to Google, Meta, and Microsoft services though a 100G connection to OmahalX.

Network Nebraska utilizes an intelligent routing platform to take full advantage of these powerful and diverse networks. This is witnessed via our

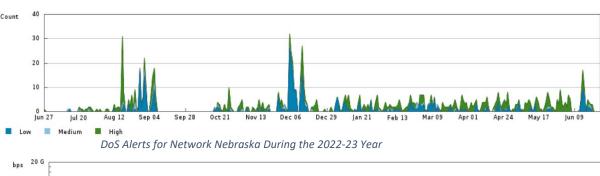

connections to statewide testing sites, Google services, Microsoft, Apple and several thousand others. As a result, we see secure, reliable, and fast connections to the services you use most.

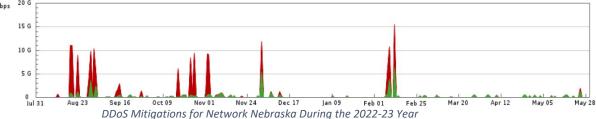

### **DDoS Protection**

As cyber threats continue to evolve, so has our approach. Currently, one of the most widely used methods to attack our educational partners is through Distributed Denial of Service (DDoS). Often these attacks can be initialized by our own students in hopes of disrupting the networks that education systems have become reliant upon. In 2021 the Network Nebraska Advisory Group (NNAG) approved an increase in DDoS protection, and that additional protection is still in place today. Since that implementation, our DDoS

protection has identified numerous potential attacks. The largest of these attacks thus far has been a 10Gbps attack, resulting in a substantial overall throughput of 2.76 TB of mitigated traffic in a single instance. Our DDoS protection system implemented robust countermeasures during these outbreaks to prevent system outages and keep our partners connected.

#### **IP Addresses**

By assigning school districts their own partition of IP address subnets they are empowered with the ability to utilize static IP addresses as necessary, giving your

Information Technology teams an additional level of control over the networks they administer. By utilizing assigned IP subnets, your networks experience benefits such as better stability, faster connection speeds, and easier troubleshooting via remote access. These IP addresses are specific to Network Nebraska and are not reliant upon the underlying Ethernet Transport Provider changes; therefore, should your transport service provider change your IP addresses will remain the same.

In addition to all this, Network Nebraska has the capability to assign IPv6 networks to those entities ready to grow into the next generation of IP addressing.

### **Server Hosting**

Network Nebraska members have access to server hosting at several of our aggregation points. Having access to server hosting has allowed our educational partners the ability to create virtual machines for school districts to use, generate backups for schools and ESUs, as well as hosting firewalls for traffic to filter through by an educational entity.

#### eduroam

Eduroam is a secure, world-wide roaming access service specifically developed for the research and education communities. Founded in Europe, it has been in use globally for over a decade and had already been widely used in the United States

Higher Education sphere for years. It wasn't until 2020 that educational partners in the K-12 space were invited to participate. Nebraska was one of three states invited to participate in the initial pilot. As of the start of this educational year 66% of Nebraska's public K-12 school districts have signed up to deploy eduroam. This allows faculty and students alike the ability to connect to eligible hotspots worldwide seamlessly. You can find more information about the eduroam program at www.connectEDnebraska.com.

# **Network Nebraska Advisory Group**

The Network Nebraska Advisory Group (NNAG) is now in its 14th year of existence. It is comprised of eight representatives from K-12 and eight from higher education. These members meet bimonthly and indirectly represent the interests of the nearly 300 entities presently on Network Nebraska. Their role is to provide strategic vision and operational recommendations to the Office of the Chief Information Officer as we continue to manage and grow the network.

Please don't hesitate to reach out to our team at the OCIO with any questions or comments about Network Nebraska or this memo. Becca can be reached at

<u>becca.kingery@nebraska</u> or (402) 471-0267. I can be reached at <u>ed.toner@nebraska.gov</u> or 402-471-3717. You can also visit the Network Nebraska website and submit your comments: <u>www.networknebraska.net</u>. For E-Rate support, please contact Chris Struebing with the Nebraska Department of Education at <u>christina.struebing@nebraska.gov</u>.

For technical assistance, we encourage you to contact the University of Nebraska 24/7 Operations Center, <a href="mailto:noc@nebraska.edu">noc@nebraska.edu</a>, or 1-888-NET-NEBR (638-6327).

As the CIO for the State of Nebraska, I continue to be very proud to be involved in this public-private project. Network Nebraska is recognized as one of the top networks of its type in the country.

Sincerely,

Ed Toner

Chief Information Officer

# **Network Nebraska Cost Recovery Rates for 2022-23**

The NNAG, OCIO, NU-ITS and the Collaborative Aggregation Partnership (CAP) have reviewed the projected network revenue and expenses for the coming year and are prepared to announce the 2023-24 rates, which will take effect with the August 2023 billing:

#### REQUIRED

Network Nebraska 1.0 Participation Fee Number of Entities \$255.00/month/entity (> 100Mbps) 288 entities

Network Nebraska .25 Participation Fee Number of Entities

\$63.75/month/entity (< 99Mbps) 9 entities

#### REQUIRED

Network Nebraska 1.0 Interregional Transport Fee S12.63/month/E-Rate entity ( $\geq$ 100Mbps) 266 entities \$23.93/month/Non-E-Rate entity ( $\geq$ 100Mbps) 21 entities

Network Nebraska .25 Interregional Transport Fee Number of Entities

 $$3.16/month/E-Rate entity (\le 99Mbps)$  7 entities  $$5.98/month/Non-E-Rate entity (\le 99Mbps)$  2 entities

#### SUBSCRIPTION SERVICES

Network Nebraska Internet Access Unit Charge	Number of Entities
\$.0800/Mbps/month for blended Internet (E-Rate entities)	18 entities
\$.2400/Mbps/month for blended Internet (non-E-Rate entities)	23 entities
\$.0300/Mbps/month surcharge for all entities for Peering Services	40 entities

Zoom Videoconferencing Statewide Contract
\$ 6.00/user/year
\$499.00/Zoom CRC Port/year
\$499.00/Zoom Room/year

TBD

## Comprehensive Listing of Network Nebraska Services and Benefits (7/1/2023)

## **Student Learning Opportunities**

- Statewide Clearinghouse and Videoconferencing Scheduling Software (www.nvis.esucc.org)
- High quality exchange of Nebraska K-12 and college video distance learning classes
- High bandwidth Internet2 peering access to over 90,000 education partners and content providers
- Internet2 programming and virtual museum trips from across the U.S./world
- Statewide contract pricing for Zoom videoconferencing and ancillary services

# **Connectivity/Transport**

- Intranet Ethernet connectivity to all 293 Network Nebraska participants
- · Interregional (high bandwidth backbone) Transport between Grand Island, Lincoln, Omaha, and Scottsbluff
- Access to 85Gbps of commodity Internet service with one of the lowest unit rates in the U.S.
- 10Gbps Internet2 Commercial Peering Service and prioritized routing to over 60,000 companies
- 20Gbps InterExchange Peering out of Omaha
- Co-location rack space at Lincoln core location as a subscription service
- Core router and core infrastructure cost avoidance through the University of Nebraska partnership
- Backbone transport provided by the University of Nebraska dark fiber circuits
- Dynamic provisioning of statewide Internet access

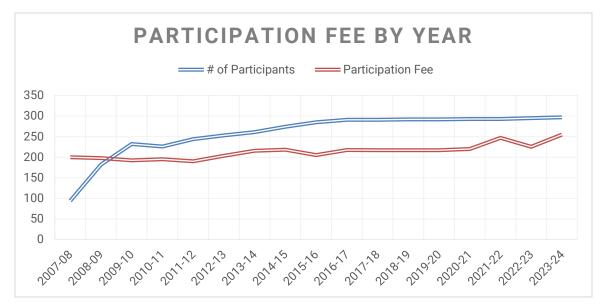

# **Network Management/Monitoring**

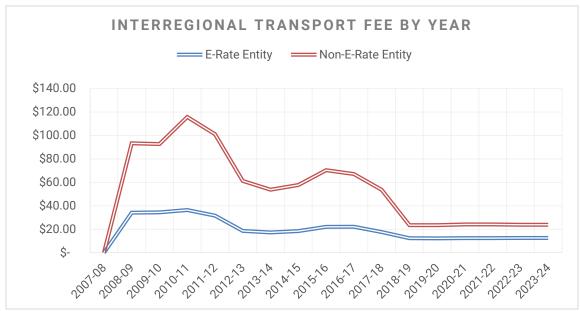

- 24/7 network monitoring and operations center, 1-888-NET-NEBR (638-6327), noc@nebraska.edu
- Incident Tracking and Automated Notification System services
- Network abuse and nefarious activity monitoring, including Arbor DDoS prevention
- Route optimization and intelligent routing using Noction software
- Perfsonar distributed speed testing and network performance measurement
- IPv4/IPv6 Address management and allocation to members
- Network time server that transmits precise time information to network clients
- Level 1 network troubleshooting and support on Network Nebraska backbone, core network devices and University of Nebraska contracts for Internet access
- Level 2 network troubleshooting and support on Ethernet circuits and other participant routing and DNS
- Onsite and/or remote technician assistance, upon request

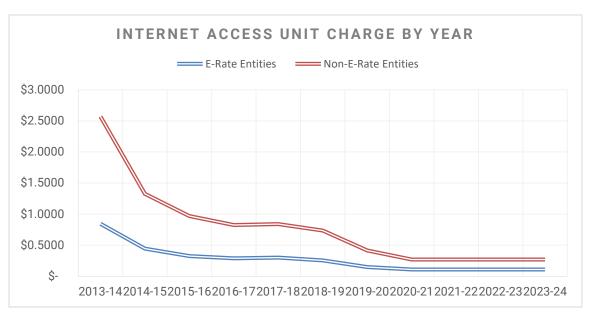

### Administrative/E-Rate

- RFP services and State Master Contract negotiations
- E-Rate filing on the eligible portion of the Interregional Transport and statewide Internet
- Consolidated invoicing and E-Rate filing on state-contracted fiber Ethernet circuits
- Membership in the Internet2 Community Anchor Program (CAP)
- Membership in the School, Health, Library Broadband (SHLB) Consortium
- Associate membership in the nationwide Quilt Consortium of Statewide Networks
- Management of the statewide purchase contracts for Ethernet transport services, Internet access, and select network equipment vendors
- E-Rate archiving of bid documents, invoices, contracts, correspondence
- Continual Management of Consortium Letters of Agency to maintain E-Rate eligibility
- OCIO Financial Solutions Services for budget development and vendor service orders
- State Billing services for Network Nebraska Participation Fee, Interregional Transport, and Ethernet
- Statewide partnership in eduroam implementation and cybersecurity training and awareness resources
- Network Nebraska website (www.networknebraska.net) development and support

#### **Network Nebraska Historic Rates for 2007-2024**
