

Technical Panel
of the
Nebraska Information Technology Commission

Resolution 19-01
Enterprise Project Progress Reports

WHEREAS, pursuant to the requirements of NITC Technical Standards and Guidelines sections 1-203 and 1-206, each enterprise project is required to submit periodic progress reports; and

WHEREAS, the Technical Panel is responsible for all logistical matters relating to the submission of enterprise project progress reports; and

WHEREAS, the Nebraska Office of the Chief Information Officer has a Project Management Office that implements and supports project management standards and methodologies to facilitate the implementation of information technology projects; and

WHEREAS, the Technical Panel has determined that utilizing the Project Management Office's project status review methodologies would assist the panel in its review of enterprise projects.

NOW, THEREFORE, BE IT RESOLVED BY THE TECHNICAL PANEL THAT:

1. the responsible agency for each enterprise project shall submit periodic progress reports to the Project Management Office in a format provided by the office;
2. the responsible agency for each enterprise project shall participate in project status meetings called by the Project Management Office to aid in the review of the written progress reports; and
3. the Project Management Office shall provide regular reports to the Technical Panel on the status of enterprise projects.

--

Adopted by the Technical Panel on October 8, 2019.
