AGENDA
TECHNICAL PANEL
Meeting by Videoconferencing
Tuesday, June 9, 2020
9:00 a.m.

9:00 a.m. 1. Roll call; meeting notice; Open Meetings Act information.

2. Approval of December 10, 2019 meeting minutes.* (Attachment 2)

3. Projects; enterprise project status dashboard. Andy Weekly. (Attachment 3)

   a. Proposal 16. Amend the accessibility policy.* [Motion to recommend approval.] (Attachment 4-a)
   b. Proposal 17. Revise the agency information technology plan form.* [Motion to recommend approval.] (Attachment 4-b)

5. Work group updates; other business.

10:00 a.m. 6. Adjourn.

* Indicates an action item.

The Technical Panel will attempt to adhere to the sequence of the published agenda, but reserves the right to adjust the order and timing of items and may elect to take action on any of the items listed.

Meeting notice was posted to the NITC website and the Nebraska Public Meeting Calendar on April 8, 2020. The agenda was posted to the NITC website on June 5, 2020. Videoconferencing pursuant to Neb. Exec. Order No. 20-24 (May 19, 2020).

TECHNICAL PANEL
Varner Hall - Board Room
3835 Holdrege Street, Lincoln, Nebraska
Tuesday, December 10, 2019, 9:00 a.m.

MINUTES

MEMBERS PRESENT:
Kirk Langer, Chair, Lincoln Public Schools
Bret Blackman, University of Nebraska, ITS
Ling Ling Sun, Nebraska Educational Telecommunications
Jeremy Sydik, University of Nebraska

MEMBERS ABSENT: Ed Toner, Chief Information Officer, State of Nebraska

ROLL CALL; MEETING NOTICE; OPEN MEETINGS ACT INFORMATION

Mr. Langer called the meeting to order at 9:02 a.m. Roll call was taken. A quorum was present. The meeting notice was posted to the NITC website and the Nebraska Public Meeting Calendar on November 21, 2019. The agenda was posted to the NITC website on December 6, 2019. A copy of the Nebraska Open Meetings Act was posted on the wall of the meeting room.

PUBLIC COMMENT

There was no public comment.

APPROVAL OF OCTOBER 8, 2019 MEETING MINUTES

Mr. Blackman noted a correction: “University of Nebraska, Computing Services Network” should be “University of Nebraska, ITS.”

Mr. Blackman moved to approve the meeting minutes with the correction. Roll call vote: Sydik-Yes, Langer-Yes, Blackman-Yes and Sun-Yes. Results: Yes-4, No-0, Abstained-0. Motion carried.

PROJECTS

Enterprise project status dashboard. Mr. Weekly provided an update on the status of the enterprise projects.

The Department of Health and Human Services is still reviewing issues relating to the Medicaid Eligibility & Enrollment System project and asked that the panel postpone any recommendation on project closure.

Without objection, agenda items 3.b. and 3.c. were passed over.

TECHNICAL STANDARDS AND GUIDELINES

The proposal was posted for a 30-day public comment period; no comments were received. The State Government Council recommended approval of the proposal by a vote of 17-0-0.

Mr. Blackman moved to recommend approval of Proposal 14. Roll call vote: Sun-Yes, Blackman-Yes, Langer-Yes, and Sydik-Yes. Results: Yes-4, No-0, Abstained-0. Motion carried.

The proposal was posted for a 30-day public comment period; no comments were received. The State Government Council recommended approval of the proposal by a vote of 18-0-0.

Mr. Sydik moved to recommend approval of Proposal 15. Roll call vote: Blackman-Yes, Sun-Yes, Sydik-Yes, and Langer-Yes. Results: Yes-4, No-0, Abstained-0. Motion carried.

ELECTION OF PANEL CHAIRPERSON FOR 2020

Ms. Sun nominated Kirk Langer to serve as Chairperson for 2020. There were no other nominations.

Roll call vote on the nomination of Kirk Langer to serve as Chairperson of the Technical Panel for 2020: Sydik-Yes, Langer-Abstained, Blackman-Yes and Sun-Yes. Results: Yes-3, No-0, Abstained-1. Motion carried.

WORK GROUP UPDATES; OTHER BUSINESS

Mr. Becker reported that the technology access clause is under review by a group led by the Commission for the Blind and Visually Impaired.

ADJOURNMENT

Ms. Sun moved to adjourn. All were in favor. Motion carried.

The meeting was adjourned at 9:24 a.m.

Meeting minutes were taken by Lori Lopez Urdiales and reviewed by Rick Becker, Office of the CIO.

Cost and Effort: 

Project Description
To secure the most cost efficient Hosted Voice Over Internet Protocol Telephony (VOIP) Services. This solution will replace the State’s Centrex service throughout the State of Nebraska. The purpose of the project is to provide phone service that includes the most up-to-date VOIP features and functionality as a hosted service with equipment ownership, maintenance and service remaining with the Contractor.

Key Accomplishments
Ported the Environmental Trust, small offices at DHHS, Accountability and Disclosure Commission, and Economic Development.

Status Report Update
As of 2/29/2020 we were at 28% complete. March brought many agencies to begin the transition to a remote workforce. Due to this change, the agencies developed a concern related to performing any non-essential work. We have been able to install and port at a few locations in March, April and May. We also continue to request agencies work on the template portion (the inventories) to keep moving as much as possible. As of today, we are approximately 33% complete.

Upcoming Activities
Working with DHHS, Dept. of Labor, State Patrol, Historical Society, Attorney General Office, Agriculture, DMV, Dept. of Transportation and Game and Parks on their porting plans.

The Affordable Care Act (ACA) included numerous provisions with significant information systems impacts. One of the requirements was to change how Medicaid Eligibility was determined and implement the changes effective 10/1/2014. As a result of the lack of time available to implement a long-term solution, the Department of Health and Human Services implemented a short-term solution in the current environment to meet initial due dates and requirements. This solution did not meet all Federal technical requirements for enhanced Federal funding but was approved on the assumption that a long-term solution would be procured. An RFP was developed and procurement has been completed with Wipro selected as the Systems Integrator for the IBM/Curam software.

Key Accomplishments
Gartner completed these deliverables:
- A set of Imperatives and Drivers that established the purposes and intent for EES.
- An Assessment of the EES Project governance, execution and outcomes.
- An Alternatives Analysis of options to move forward.
- A recommendation on how to move forward, with a roadmap of actionable steps.

Executive review of these outputs with DHHS, OCIO and IS&T leaders occurred in September, 2019.

Status Report Update
In 2014, the contract for an Eligibility and Enrollment System (EES) was awarded to the SI, Wipro Inc., using the IBM Curam software product. The EES project’s budget was approximately $80 million leveraging enhanced FFP of 90% Federal and 10% State dollars. The SI began in the summer of 2014.

The anticipated Return on Investment was not achieved, including:
- More complete and timely analytics
- Client benefits, such as real time eligibility determinations
- Bringing MLTC into Federal compliance with updated technologies

Throughout the SI development efforts, concerns were raised about the quality of deliverables, significant lack documentation, slippage in schedule and major concerns of budget expended without tangible results.

Following a review of the EES project conducted between October and December 2018, State executive leadership agreed to terminate the SI contract and seek a new partner.

Before procuring a new partner, however, the State asked Gartner, Inc. to review the then current state of EES, conduct an alternatives analysis, and identify strategies for moving forward with the DHHS integrated eligibility initiative.

Gartner spent four months analyzing the project, reviewing processes, governance, software, and documentation while conducting interviews with more than 100 DHSS staff and contractors, including leaders in DHSS, the OCIO and IS&T.

Gartner’s recommendation was to go to market with a new procurement for an Integrated Eligibility and Enrollment Benefits Management (IE&E BM) system built from a framework of shared components that include:
- Modern development tools and frameworks, business rules and process management systems, integration middleware, user experience/engagement and data mgmt. software.

Upcoming Activities
The newly branded Integrated Eligibility and Enrollment / Benefits Management project (IE&E / BM) is anticipated to begin procurement in Q3 of SFY20.

Significant investment in DHHS Enterprise Project Management Office (EPMO) processes, Architectural standards and procedures, data governance and management and Organizational Change Management processes will happen in parallel to this activity, setting foundations that will improve the potential for success in a new project.
Project Storyboard: Medicaid Management Information System Replacement Project (MMIS)

Project Description
Medicaid and Long-Term Care (MLTC) has undertaken a strategic transformation toward a vision for a Medicaid enterprise that is fundamentally data-driven. This project supports the programmatic shift by giving the stakeholders access to claims and clinical data and appropriate analytic tools. This project of building a comprehensive data management and analytics (DMA) platform is aligned with the CMS modular approach to building system and operational capabilities. The current system consisting of legacy MMIS and Truven DW/DSS has several limitations that warrant the need to re-engineer the data management and analytical operations. The DMA system is envisioned to be the core repository for the State to address all its information and data needs.

Key Accomplishments
1. Soft Launch Status: Live! In production, as planned, June 1st. Support teams are managing issues and defects, of which few have been significant.
2. T-MSIS Submissions: Concurrence granted by CMS! HIA will have its first production T-MSIS submission in July 2020 for June data.
3. Heritage Health Adult Release: Development complete, UAT testing underway and on schedule for a July 15th implementation.

Status Report Update
A schedule re-baseline incorporating a June 1st soft-launch concept and a November 2nd go-live date was granted by CMS in late January and codified in an approved planning update on March 30th. The new baseline accommodates updates to software for the Heritage Health Adult (HHA) project, as well as enhancements to improve operational functionality for the Medicaid and Long-Term Care division. The soft-launch would take all code developed and tested to date (February, 2018 to April, 2020) into production, with the HHA and enhancements code to follow in July through September of 2020.

Upcoming Activities
1. Monitoring and stabilization period for post soft-launch support.
2. HHA Enhancements release implementation 07/15/20.
3. Enhancements release implementation 09/01/20.
5. Go-live on November 2, 2020.

Cost and Effort: 🌟🌟🌟🌟🌟

Project Description
The Nebraska Regional Interoperability Network (NRIN) is a project that will connect a majority of the Public Safety Access Points (PSAP) across the State by means of a point to point microwave system. The network will be a true, secure means of transferring data, video and voice. Speed and stability are major expectations; therefore there is a required redundant technology base of no less than 100 mbps with 99.999% availability for each site. It is hoped that the network will be used as the main transfer mechanism for currently in-place items, thus imposing a cost-saving to local government. All equipment purchased for this project is compatible with the networking equipment of the OCIO.

Key Accomplishments
Three more active rings were added in the last 4 months – 2 in the Southwest Region, 1 in the North Central Region and 1 in the South Central Region.

Status Report Update
Work is being done is the South Central Region – the border corridor, the NorthEast Region – path from Norfolk to O’Neill and Norfolk to South Sioux City, and the North Central Region – path from Broken Bow to O’Neill. Three more active rings were added in the last 4 months – 2 in the Southwest Region, 1 in the North Central Region and 1 in the South Central Region.

Current Issues

Attachment 4-a
A PROPOSAL relating to the accessibility policy; to amend section 2-101; and to repeal the original section.

Section 1. Section 2-101 is amended to read:

2-101. Accessibility policy.

(1) Purpose. This policy contains scoping and technical requirements for information and communication technology ("ICT") to ensure accessibility and usability by individuals with disabilities.

(2) Definitions. For the purpose of this section, terms defined in referenced documents and not defined in section 1-101 will have the meaning as defined in the referenced documents.

(3) Standards. ICT that is procured, developed, maintained, or used by state agencies shall conform to the following standards: Revised 508 Standards, 36 C.F.R. § 1194 (2018) [https://www.govinfo.gov/content/pkg/CFR-2018-title36-vol3/xml/CFR-2018-title36-vol3-part1194.xml].

For the State of Nebraska, the Revised 508 Standards referenced in this subsection are revised as follows:

(a) In E103.4, replace the definition of “Existing ICT” with the following: “Existing ICT. ICT that has been procured, maintained or used on or before November 14, 2020.”;

(b) In E202.2, replace the existing language with the following: “Legacy ICT. Any component or portion of existing ICT that complies with an earlier standard adopted by the commission, and
that has not been altered on or after November 14, 2020, shall not be required to be modified to
conform to the Revised 508 Standards.”;

(c) In E202.3, replace the existing language with the following: “Public Safety Systems. The
Revised 508 Standards do not apply to any ICT operated by state agencies as part of a public
safety system.”;

(d) In E202.4, replace the existing language with the following: “State Contracts. ICT
acquired by a contractor incidental to a contract shall not be required to conform to the Revised
508 Standards.”; and

(e) In E203.1, replace the existing language with the following: “General. Agencies shall
ensure that all functionality of ICT is accessible to and usable by individuals with disabilities,
either directly or by supporting the use of assistive technology, and shall comply with E203. In
providing access to all functionality of ICT, agencies shall ensure the following: A. That state
employees with disabilities have access to and use of information and data that is comparable
to the access and use by state employees who are not individuals with disabilities; and B. That
members of the public with disabilities who are seeking information or data from a state agency
have access to and use of information and data that is comparable to that provided to members
of the public who are not individuals with disabilities.”;

(f) In Appendix C to Part 1194, delete section 702.10.1 in its entirety;

(g) Delete all instances of the parenthetical clause “(incorporated by reference, see
702.10.1)”;

(h) Replace all instances of “WCAG 2.0” with “WCAG 2.1 (Web Content Accessibility
Guidelines 2.1, W3C World Wide Web Consortium, Recommendation 05 June 2018,
https://www.w3.org/TR/2018/REC-WCAG21-20180605/)”.

(4) Guidelines. In addition to the web content requirements contained in the referenced
standards in subsection (3), the commission recommends compliance with the following
Sec. 2. Original section 2-101 is repealed.

Sec. 3. This proposal takes effect when approved by the commission.
Attachment 4-b
A PROPOSAL to revise the agency information technology plan form.

Section 1. The form referenced in section 1-201 is revised as follows:
Nebraska Information Technology Commission
and the
Office of the Chief Information Officer

Agency Information Technology Plan

Due: September 15, 2020

Notes about this form:

1. **Requirement.** “On or before September 15 of each even-numbered year, all state agencies, boards, and commissions shall report to the Chief Information Officer, in a format determined by the commission, an information technology plan that includes an accounting of all technology assets, including planned acquisitions and upgrades.” (Neb. Rev. Stat. § 86-524.01). This document is the approved format for information technology plans. This form should be treated as if it is a public record. Do not include information that would compromise information technology security.

2. **Deadline.** The information technology plan is due on September 15, 2020.

3. **Submitting the Form.** The form must be submitted online at [https://cioapps.nebraska.gov/ITPlan](https://cioapps.nebraska.gov/ITPlan).

4. **Questions.** Contact the OCIO Service Desk at (402) 471-4636.

Narrative:

1.4.5 Public Internet Access
Does the agency provide internet access to the public? If yes, provide a brief description of the access provided.

Narrative:

1.5 Server Rooms
1.5.1 Server Rooms

Many agencies have invested in dedicated space for housing servers and network equipment. This dedicated space provided close proximity of the equipment to an agency’s offices and support staff. During the early years of client/server technology, close proximity offered many advantages and was even essential in some situations. Changes in technology and higher network speeds have eroded the advantages of close proximity to the extent that separate server rooms often represent a duplication of costs and an impediment to good security, reliability, disaster recovery, and efficient operations. The trend in all large organizations is consolidation of servers and data centers.

The purpose of this section is to document the number and size of server rooms and encourage planning for use of shared services that would eliminate the need for most server rooms.

Please complete the following information:

1. Does your agency have servers in the CIO data center (yes / no):
2. Does your agency have a server room (yes / no) [if no, proceed to Section 2.]:
3. Where is the server room located (city, building, floor):
4. What is the size of the server room (square footage):
5. Does the room have special electrical power feeds (yes/no):
6. Does the room have special cooling capacity (yes/no):
7. Does the room have uninterruptible power supply (yes/no):
8. Does the room have backup power, such as a generator (yes/no):
9. Does the room have a separate fire suppression system (yes/no):
10. What equipment is located in the server room (number of servers, racks, network devices, etc.):
11. What security is available for the server room?

Provide a brief narrative describing your agency’s plans to reduce or eliminate the server room or explain why it is still needed.

2. Staff and Training

2.1 Staff and Related Support Personnel

Identify staffing necessary to maintain your current IT environment, including contractor and CIO staff supporting your agency specific environment.

<table>

### 4.3. Projects and Future Plans

#### 4.13.1 Projects Currently Active

List current IT projects, including a description of the project, the current project status, projected completion date and costs.

- **Project Title:**
- **Brief Description:**
- **Describe project alignment with agency goals:**
- **Current Status:**
- **Projected Completion Date:**
- **Total Project Cost:**
4.33.2 Projects Planned to be Started in FY2020
List IT projects that are planned to start before the end of the current fiscal year which were not listed in the previous section.

Project Title:
Brief Description:
Describe project alignment with agency goals:
Projected Start Date:
Projected Completion Date:
Total Project Cost:

4.33.3 Projects Planned for the 2020-2021 Biennium
List IT project planned for the next biennium. (Note: If funding for a project has been requested and an IT Project Proposal entered in the Nebraska Budget Request and Reporting System, you only need to list the project title and note that it is included in the agency budget request.)

Project Title:
Brief Description:
Describe project alignment with agency goals:
Projected Start Date:
Projected Completion Date:
Total Project Cost:

4.43.4 Long-Term Plans (Beyond the 2020-2021 Biennium)
Describe any long-term plans for projects to be started after the 2020-2021 Biennium.

Agency Narrative:

4.63.5 Other Issues
This is a general comment section where the agency can identify issues not captured in another section of the plan. This provides an opportunity to address issues which may, or may not, impact an agency IT budget; such things as known risks, trends, or issues for which there is not currently enough information to be included in the other sections. This section can also be used to summarize the agency’s strategies and future direction for the use of information technology within the agency.

Agency Narrative:

Sec.2. This proposal takes effect when approved by the commission.
